Your brain helps you think.

Your brain helps you move.

- Jumping
- Running
- Kicking
- Balancing
Emotions are how you feel inside. What are some emotions?

- Happy
- Mad
- Sad
- Embarrassed

Your brain helps your body work.
Max wants to be a Junior Scientist more than anything. Every day, he learns more. Junior Scientists know that science is all around us.

**Science is All Around Us**

Here are some things that scientists study. Use your thinking cap to figure out what they are.
