Eating Healthy

What you eat is a very important part of staying healthy. You should eat nutritious foods from each of the food groups. This will help keep your brain and body healthy.

Sleep

Sleeping is an important part of staying healthy. Little kids need 10 hours of sleep every night. If you go to sleep at 8:00 p.m. every night and get out of bed in the morning at 6:00 a.m., you would be getting enough sleep to keep yourself healthy.
Exercise

Children should exercise for at least 30 minutes each day. You can do several fun activities to get your daily exercise.

- Do some jumping jacks
- Draw a hopscotch court on the sidewalk with some chalk and play
- Throw a ball with your friends
- Play a game of kickball
- Ride your bike

Safety

There are many ways to keep yourself safe. Some of the items above are unsafe or not as safe as they could be. Help each one become safer by matching it with the right equipment.
